

**AMENDMENTS TO THE SPECIFICATION**

A. Please insert the following amendments to paragraph [0014] of the present application.

[0014] A micro-device for collection and separation of biosamples from environmental interferences is called  $\mu$ Chem Lab or Lab-on-a-chip~~Chip~~Chip<sup>™</sup>. This type of sensor is amenable to multiple detection concepts, but burdened with formidable plumbing difficulties such as valve operation, plugged lines and manifolds.
